

PROF. DAVID G. HENRY, SR.
Registered Patent Attorney and Patent Law Professor

I'd like to introduce **Professor David Henry**. Prof. Henry is a partner in a **Houston-based law firm**, doing **patent and trademark litigation** throughout the United States and internationally (usually, *as pilot*, flying himself to his meetings and court matters). He has been named as a "Super Lawyer" for each of the past three years.

His beginnings were not as you might expect. Effectively dropping out of high school during his junior year, Prof. Henry worked on a loading dock through age 20, when, with a second chance given him by Baylor, he began studies here, ultimately going to Baylor Law School on scholarship.

As part of Prof. Henry's **attempt to honor those who mentored and believed in him**, and to **help the next generation understand that anyone can overcome any obstacle with faith, determination, love and wise mentoring**, he donates about 1/3 of his time to Baylor and its students.

Prof. Henry teaches patent and trademark courses at **Baylor Law School**, and also teaches in Hankamer School of Business' **Executive MBA** and **I5 in China** Programs.

Prof. Henry has also served the Greek Life community for over 10 years, and now serves as **Faculty Advisor** for both **Alpha Tau Omega** and **Delta Delta Delta**, as well as on the **Student Organization Judicial Board**. Prof. Henry has *twice* been named **Greek Advisor of the Year**, and has also been named **Faculty Member of the Year by Student Government**, and been awarded the **Student Advocate Award by Baylor's Division of Student Life**.

Without further delay....Professor Henry with a few comments about hazing.
